2. Overview of principle activities or products during the reporting period

(1) Business overview of the Company

The Company is a large modern conglomerate principally engaged in pulp production and paper making and committed itself to implementing a pulp and paper integration strategy. The Company has production bases in Shandong, Guangdong, Hubei, Jiangxi, Jilin and other places for the production of machine-made paper products covering more than 200 types in seven series, including culture paper, coated paper, white cardboard, copy paper, industrial paper, special paper, and household paper. It is the enterprise with the largest variety of products and the most complete products in the domestic paper industry. It is also the first domestic paper making enterprise that achieves a balance between pulp production and paper making capacity in general. During the reporting period, the machine-made paper business was the major source of revenue and profit of the Company, with no significant changes in

the principal activity.

In recent years, the contradiction between supply and demand in the short term has been prominent due to the concentration of newly-added production capacity in the paper industry. As a result, the prices of the Company's major products continued to decline during the reporting period with a year-on-year decrease in gross profit. In addition, some of the Company's production bases had successively been in shutdown and maintenance in the fourth quarter, leading to unsatisfactory capacity utilisation and a year-on-year decline in production and sales volumes. The Company made impairment provisions for certain assets, and also increased the provision ratio for bad debts related to underperforming financial leasing customers out of prudence, which collectively contributed to a decline in profitability. In 2024, the net profit attributable to shareholders of the Company recorded a loss of RMB7,411 million.

(2) Major products of the Company and their application

The Company attaches great importance to technology research and development and brand benefits. Focusing on key areas of green papermaking technology, the Company continuously strengthens the construction of research platforms and other hardware facilities, and has a number of domestically leading innovative R&D platforms including a national enterprise technology centre, a post-doctoral working station, a collaborative innovation centre for cleaner production and refinery of light industry bio-based products, the Shandong Pulp and Paper Making Engineering Lab, in order to promote standardised production, optimise and adjust its product structure, and facilitate high-quality development of its principal business. During the reporting period, the Company successfully passed the audit of China Environmental United Certification Center, and was awarded the certificate of "China Environmental Labelling (Type I) Product Certification". Projects such as the "development of green wet processing technology for corn starch" were included in the 2024 Shandong Provincial Technological Innovation Project Campaign.

III. Matters of significance**1. Overdue of some of the debts, freezing of some of the bank accounts and shutdown of production bases**

In recent years, the contradiction between supply and demand in the short term has been prominent due to the concentration of newly-added production capacity in the paper industry. The prices of the Company's major paper products, in particular the price of white cardboard, have declined significantly under the influence of the supply-demand contradiction. Subsequently, the profit level of the Company has been continuously decreasing, and has even turned from profits into losses; coupled with the situation where some financial institutions have downsized the loan scale, the Company and some of its subsidiaries have, during certain phases, faced issues of failing to repay some debts as scheduled. In response, some creditors have filed lawsuits against these debts in the court and simultaneously applied for property preservation, and the court has made a ruling to freeze some of the bank accounts of the Company and its subsidiaries. Since November, certain production lines in Shouguang base and Zhanjiang base, Jiangxi base and Jilin bases were shut down for maintenance. As at the end of the reporting period, the Company and its subsidiaries had a cumulative of 210 bank accounts frozen. The cumulative frozen amount of the frozen bank accounts amounted to RMB44.1583 million (excluding deposits).

For details, please refer to the relevant announcements disclosed by the Company on CNINFO on 20 November 2024 and 21 December 2024 (announcement number: 2024-073 and 2024-079) and the announcements disclosed by the Company on the website of Hong Kong Stock Exchange on 19 November 2024 and 20 December 2024.

2. Business status of Chenming Leasing

At present, the Company focuses on the development of its principal activities, i.e. pulp production and paper making, and continues to reduce the size of the financial leasing business. Some financial leasing customers experienced operational difficulties, leading to unexpected situations such as litigations and seizures. The Company increased the provision ratio for bad debts related to these financial leasing customers out of prudence. As at the end of the reporting period, the balance of financial leases of Chenming Leasing decreased to RMB4.467 billion. Among which, receivables of RMB1.432 billion (principals of RMB1.219 billion) were overdue, for which provisions of RMB668 million were made, with a provision coverage rate of 46.65%. Certain assets were subject to seizure through litigation. The Company has resorted to, among other things, control of the underlying assets, litigation for seizure, recovery for guarantors and debt reconstruction with the overall risks under control.

3. Dissolution of Chenming Finance

On 14 August 2024, the Resolution on Dissolution of Shandong Chenming Group Finance Co., Ltd. was considered and approved at the tenth meeting of the tenth session of the Board convened by the Company, pursuant to which the Board of the Company agreed to authorise the management of the Company to deal with the matters relating to the dissolution of Chenming Finance. The dissolution of Chenming Finance is subject to the approval of the National Financial Regulatory Administration.

For details, please refer to the relevant announcement disclosed by the Company published on CNINFO on 15 August 2024 (announcement no.: 2024-047) and the relevant announcement disclosed on the website of Hong Kong Stock Exchange on 14 August 2024.
